

Kiewit

ON-CALL CONTRACTING WATER/WASTEWATER

Maintaining functional and operable water and sewer systems is a critical local government service on which residents and communities rely. Kiewit is a leading contractor that provides on-call contracting across the United States. Our experience with similar agreements, refined processes and detailed procedures will provide a consistent, high-level of success on your on-call contracts.

SINCE 2013,

our on-call teams have successfully completed

**OVER 600 SEPARATE
WORK ORDERS RANGING
FROM \$50K to \$1M+**

per work order.

CUSTOMIZED APPROACH

On-Call Contracts eliminates the need to separately bid each project as procurement departments needs are satisfied with just one solicitation that helps streamline the contract process and speed of delivery.

Kiewit works closely with clients and in-house or third party engineers to troubleshoot issues, develop scopes, schedules and reliable cost estimates while helping clients prioritize their needs to meet their budgets.

Our on-call contracting approach provides clients the confidence that their work orders will be completed safely and on budget through a cost competitive, open-book methodology.
